### Final Examination Reflection Question

**Reflection question:** Thinking back over your experiences in music class this semester, write a brief reflection on anything of value you are taking away from your time. Remember that music class included, but was not limited to, the elements listed below. While you may wish to use the list to spur your memory, you need not limit your response to these items.

- Music theory (reading and analyzing printed music)
- Music appreciation (the listening CDs)
- Concert reviews of live performances
- Dictation
- Sight-reading (in junior high) and sight-singing (in high school)
- Improvising (making up melodies to poetry in junior high and learning to sing harmonies in high school)
- Recorder technique (in junior high), vocal technique (in high school)
- Performing quizzes in preparation for the concert
- Performance before live audience.

You will receive credit for this answer on this basis:

- It is handwritten in dark ink at the time of the final examination
- It is legible
- It answers the question
- Provides evidence for the claim.
- Makes sense
- Uses good grammar
- Makes a coherent argument
- It is three or more sentences long
- The four blanks at the bottom of the page are complete (these are the student's signature, name, section, and date)
